Administrator's Actions

- **Needed by December 1: Administrator's signature requested (OAR & OP):** Proposed Rule: National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities Technology Review: This action is being taken in response to a 2019 consent decree with the Our Children's Earth Foundation agreeing to set reasonable deadlines for EPA to review emissions standards for seven source categories. The consent decree requires EPA to perform a review of developments in work practices, processes and/or control technologies, and propose amendments to the Perc Dry Cleaning National Emission Standards for Hazardous Air Pollutants (NESHAP) by **December 1**. (OAR POC: Mike Koerber, [[HYPERLINK "mailto:koerber.mike@epa.gov"](mailto:koerber.mike@epa.gov)], 919-450-6478) (OP POC: Bill Nickerson, [[HYPERLINK "mailto:Nickerson.William@epa.gov"](mailto:Nickerson.William@epa.gov)], 202-566-0326)
- **Needed by December 3: Administrator's signature requested (OAR):** Consideration of Negotiated Rulemaking for Petitions Granted or Partially Granted under Subsection (i) of the American Innovation and Manufacturing Act of 2020: The American Innovation and Manufacturing (AIM) Act's subsection (i) allows petitions requesting restrictions on hydrofluorocarbons (HFCs) in sectors or subsectors where they are used, but the AIM Act also stipulates the agency must consider using a Negotiated Rulemaking process before beginning the rulemaking process. EPA is issuing a notice to inform the public the agency has decided not to use the negotiated rulemaking procedures for any rules responding to the 11 petitions granted (or partially granted) by the agency on **October 7**. (OAR POC: Suzie Kocchi, [[HYPERLINK "mailto:kocchi.suzanne@epa.gov"](mailto:kocchi.suzanne@epa.gov)], 202-343-9387)
- **Needed by December 7: Administrator's signature requested (OMS & R5):** Region 5 Large Scale Award – Freedom of Information Act. (OMS POC: Cheri Hembrey, [[HYPERLINK "mailto:Hembrey.cheri@epa.gov"](mailto:Hembrey.cheri@epa.gov)], 202-564-6223)
- **Needed by December 7: Administrator's signature requested (OMS):** Delegation of Authority 2-93A, Vessel Sewage. (OMS POC: Deborah Ward-Beard, [[HYPERLINK "mailto:beard.deborah-ward@epa.gov"](mailto:beard.deborah-ward@epa.gov)], 513-569-7766)
- **Needed by December 10: Administrator's signature requested (OLEM):** Little Scioto River Superfund Site. This week OLEM will submit the package to request the Administrator's approval of the Explanation of Significant Differences for this site in R5. (OLEM POC: Silvina Fonseca, [[HYPERLINK "mailto:fonseca.silvina@epa.gov"](mailto:fonseca.silvina@epa.gov)], 202-564-1955)
- **Needed by December 10: Administrator signature requested (OCSPP/OMS):** On **November 2**, OMS confirmed receipt of the OCSPP AA's request for a permanent EPA Delegation of Toxic Substances Control Act (TSCA) Section 14(d) authorities. As prescribed by the established Delegations process, OMS completed the final submission to OEX on **November 16** and is requesting the Administrator's signature by **December 10**. (OCSPP POC: Angela Hofmann, [[HYPERLINK "mailto:hofmann.angela@epa.gov"](mailto:hofmann.angela@epa.gov)], 202-564-0258) (OMS POC: Deborah Ward-Beard, [[HYPERLINK "mailto:beard.deborah-ward@epa.gov"](mailto:beard.deborah-ward@epa.gov)], 513-569-7766)
- **Needed by December 10: Administrator signature requested (OCSPP):** Requested during the week of **December 6**. Cyclic Aliphatic Bromide Cluster (HBCD); Draft Revision to TSCA Risk Determination; Notice of Availability and Request for Comment – Currently pending final review and sign-off by the OCSPP AA, this FR document will be submitted via OP as a non-ADP action, with targeted signature planned for this week. (OCSPP POC: Angela Hofmann, [[HYPERLINK "mailto:hofmann.angela@epa.gov"](mailto:hofmann.angela@epa.gov)], 202-564-0258)
- **Needed by December 14: Administrator's signature requested (OP):** (Signature requested **November 19**): National Emission Standards for Hazardous Air Pollutants: Municipal Solid Waste Landfills Residual Risk and Technology Review; Correction (Final rule). In this action, EPA is

yyyy"]

finalizing technical revisions and clarifications for the national emission standards for hazardous air pollutants (NESHAP) for MSW Landfills established in the **March 26, 2020**, final rule. (OP POC: Bill Nickerson, [[HYPERLINK "mailto:Nickerson.William@epa.gov"](mailto:Nickerson.William@epa.gov)], 202-566-0326)

- **Needed by December 14: Administrator's signature requested (OP):** On-Site Civil Inspection Procedures; Rescission (Final rule; rescission of regulations). In accordance with the Presidential Directive of **January 20**, "Revocation of Certain Executive Orders Concerning Federal Regulation," EPA is rescinding its **March 2, 2020**, final rule describing certain agency procedures for conducting on-site civil inspections. (OP POC: Bill Nickerson, [[HYPERLINK "mailto:Nickerson.William@epa.gov"](mailto:Nickerson.William@epa.gov)], 202-566-0326)

- **Limetree Bay Refining: Proposed Start by New Owner:** The bankruptcy court deadline for Limetree Bay Refining to designate the winning bidder is now set for **November 30**; that bidder is expected to be St. Croix Energy (SCE). On **November 23**, R2 sent a letter to SCE responding to that entity's proposal about starting the refinery and saying that it is not clear the proposal fully takes account of the matters identified in EPA's **September 24** letter to prospective bidders. We advised SCE that it will need to engage with us regarding environmental compliance and permitting issues prior to the start of any refinery operations. **Consent Decree (CD) Modification:** Separately, last week the federal judge with jurisdiction over the modification of the judicial CD applicable to the refinery scheduled an unusual evidentiary hearing for **December 21** concerning the government's motion for court entry of that modification.

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

- **Consent Decree with NYC Dept. of Education Entered by Court:** On **November 24**, the U.S. District Court for the Eastern District of New York entered our Consent Judgment under the Clean Air Act with the City of New York and the New York City Department of Education (NYCDOE), addressing the City's widespread failure to properly monitor and control harmful emissions from oil-fired boilers in New York City public schools. Many of NYCDOE's boilers are located at schools in disadvantaged communities, where residents are affected by disproportionately high pollution levels that result in adverse health and environmental impacts. The Consent Judgment requires NYCDOE to: (1) conduct regular boiler tune-ups to monitor, maintain and repair its boilers as required to control emissions of hazardous air pollutants; (2) reduce its overall boiler emissions by replacing seven of its largest and more polluting oil-fired boilers with cleaner natural gas boilers by **March 2023**, at an approximate up-front cost of \$50 million; and (3) pay a civil penalty of \$1 million to the United States. The conversion to natural gas will offset emissions from burning approximately 3.1 million excess gallons of No. 4 oil over the approximate 3-year period of noncompliance addressed by this settlement.
- **Meeting with Puerto Rico Department of Natural and Environmental Resources (DNER) and Puerto Rico Electric Power Authority (PREPA):** On **December 9**, the Secretary Rafael Machargo of the PR DNER and Director Josue Colon of PREPA will meet with RA Lisa Garcia and R2 senior leadership to discuss the status of the PR Sulfur Dioxide Non-Attainment State Implementation Plan. The non-attainment is due primarily to emissions from PREPA power plants. PREPA recently informed EPA that it will not be able "to retire or limit generation units at this time due to the power situation in Puerto Rico," and proposes the implementation of alternative measures to reduce SO₂ in non-attainment areas.

Miscellaneous

- **Camden Events:** On **November 23**, DRA Walter Mugdan gave remarks at the 2021 **Camden Environmental Summit**, promoting equity & inclusion in the environmental realm; participants included residents, non-profit organizations, community leaders, environmental advocates,

yyyy"]

businesses, and government officials. Topics included waste and recycling, open space, brownfields and more. On **November 30**, LCRD Director Ariel Iglesias gave remarks at a **Brownfields** event at the Cramer Hill Waterfront Park in Camden, celebrating completion of a major park and recreational complex on a former solid waste landfill. EPA has supported this project with \$1.8 million through multiple grants over several years. NJ Governor Murphy was the headline speaker.

Hot Topics

- On **December 1**, R7 and R8 will jointly host the annual State Department of Agriculture Meeting. These meetings serve as a forum for the EPA Regional Administrators and state agriculture commissioners, directors, and secretaries to share issues and topics of interest to both the agriculture community and EPA. Each year, EPA and states work together to develop an agenda of topics based on the needs of the states, and EPA senior leaders regularly attend and provide presentations and updates on policy issues and other requested topics, including renewable fuels, pesticides, water quality, regional priorities, and EPA agriculture updates. Acting R7 Administrator Ed Chu will participate and provide remarks, as will R8 Administrator KC Becker and Deputy Deb Thomas. EPA HQ leaders will also provide updates on key topics; participants include Rod Snyder,

yyyy"]

Tom Wall, Sylvia Quast, Russell Kaiser, and Ed Messina. R4 Agriculture Departments will also attend the afternoon virtual session.

- On **December 2 and 9**, R7 will participate in the Quad Cities Area Virtual Food Summit in Davenport and Bettendorf, Iowa, as well as Moline and Rock Island, Illinois. This collaborative event, hosted by the Wichita State University Environmental Finance Center through a cooperative agreement with EPA, will engage stakeholders to network and discuss the greater Quad Cities food system. The goal of this event is to find feasible solutions that will reduce food loss and waste and increase access to healthy food for all.
- On **December 9**, R7 will host a Public Availability Session at the Syntex Superfund Site in Verona, Missouri. The purpose of this session is to update the public on the site and discuss the public's concerns regarding air emissions from BCP (the current owner). Increased public interest in the local community prompted R7 to hold this meeting. The agenda includes topics such as recent reports of ethylene oxide air emissions, BCP air emissions status, and request for information by the public on cancer cluster studies.

Region 8

Hot Topics

- **Request for Administrative Stay of EPA's Decision to Redesignate the Northern Portion of Weld County as Nonattainment for the 2015 Ozone NAAQS.** On **November 19**, Weld County provided the EPA with a request for an administrative stay of EPA's decision to redesignate the northern portion of Weld County as nonattainment for the 2015 8-hour ozone National Ambient Air Quality Standard (NAAQS). Weld County intends to file a petition for review in the D.C. Circuit challenging the Redesignation Rule on the grounds it is "arbitrary, capricious, and contrary to law." The Administrator signed our final response to the D.C. Circuit remand for El Paso County, Texas and Weld County, Colorado for the 2015 ozone NAAQS on **November 17**. In this action, we expanded our initial designations for the Denver Metro/North Front Range, Colorado nonattainment area to include all of Weld County.
- **British Columbia (B.C.) Announces Draft Selenium Objectives for Lake Koocanusa.** B.C. announced its draft selenium objectives for Lake Koocanusa - 0.85 µg/L (water column) and 5.2 mg/kg (fish whole body) - and next steps for implementing the objectives on **November 18**. Next steps will include a public comment period for the draft objectives (winter 2022), reopening the Area Based Management Plan (ABMP) (two-year process), and amending Teck's discharge permits after the ABMP is finalized. B.C. would not commit to incorporating the draft objectives directly into Teck's permit but stated that objectives will be "considered."
- **EPA R7&8 State Department of Agriculture Director's Meeting on December 1.** EPA R7 and 8 are hosting a State Department of Agriculture Meeting for the 11th year. These meetings serve as a forum for the EPA Regional Administrators and state agriculture commissioners, directors, and secretaries to share issues and topics of interest to both the agriculture community and EPA. R8 Administrator KC Becker and Deputy Administrator Deb Thomas and R7 Administrator Ed Chu will participate and provide remarks. EPA HQ leaders will provide updates on key topics;

yyyy"]

participants include Rod Snyder, Tom Wall, Sylvia Quast, Russell Kaiser, and Ed Messina. R4 Agriculture Departments will also attend the afternoon virtual session.

- **EPA Office of Inspector General (OIG) Interview with R8 on Cybersecurity Risks under America's Water Infrastructure Act (AWIA).** EPA R8's Water Division and Enforcement Division will meet with OIG on **November 30** for an interview about R8's AWIA oversight and compliance, under a project titled "Addressing Cybersecurity Risks to Community Water Systems under the America's Water Infrastructure Act of 2018" The objectives of the audit are to: assess the adequacy of the cybersecurity baseline information that EPA developed; determine how community water systems used this information and assess the adequacy of EPA's oversight to ensure that community water systems comply with AWIA Section 2013.
- **EPA R8's Safe Drinking Water Programs will meet Virtually with Wyoming Governor's Small Water System Task Force.** R8 will participate in a twice-yearly coordination meeting with various Wyoming state and local agencies via teleconference on **December 1**. Major topics on the agenda include: 2021 and 2022 EPA drinking water site visit updates; issues involving specific Wyoming drinking water systems; risk assessment and emergency response plan compliance update; upcoming EPA Groundwater Under the Direct Influence (GWUDI) Workshop meetings; COVID-19 updates and infrastructure bill funding for Wyoming. Region 8 directly implements the Safe Drinking Water Act in Wyoming.
- **2021 Wasatch Range Earthquake Rehearsal of Concepts Exercise.** R8 participated in a Rehearsal of Concepts (ROC) exercise for the Wasatch Range Earthquake Response Plan. The U.S. Federal Emergency Management Agency (FEMA) hosted the exercise on **November 16 -18**, 2021 in Sandy, Utah. The Wasatch Range Earthquake Response Plan was developed in cooperation with the Utah Division of Emergency Management and provides an executable plan for the Federal government to coordinate in a unified command structure and respond immediately following a catastrophic earthquake along the Wasatch Fault in Utah. The ROC exercise brought together over 300 participants (in person and virtually), including federal, state, tribal, local, and industry partners to discuss the concepts of a coordinated response to the first 72 hours of an earthquake event.
- **Greeley Facility Response Plan Inspection and Unannounced Exercise.** R8 conducted an FRP compliance assistance and observed a spill response equipment deployment exercise at an EPA-regulated bulk petroleum storage facility in Commerce City, Colorado, on **November 18**. The inspection and exercise were conducted at the following facility: NuStar Logistics, L.P. – Denver Refined Products Terminal in Commerce City, Colorado. The facility was successful in meeting the exercise objectives using local spill response contractors. This will ensure a timelier oil spill response and better source control to reduce potential environmental impacts from a spill at this facility.

- The Acting RA intends to propose approval of the second limited maintenance plan for the 24-hour PM10 standard for the Bullhead City area in Arizona. (R9 POC: Matt Lakin, [HYPERLINK "mailto:lakin.matthew@epa.gov"], 415-972-3851)

Hot Topics

Releases at Red Hill Bulk Fuel Storage Facility (HI)

- On **November 20**, 9,000 gallons of water and fuel were recovered from a release at the facility. While attributed to a crack in a fire suppression system valve, it is unknown how fuel got into a water/foam line. Hawaii Department of Health (DOH) issued a Notice of Interest to the Navy which requires response actions including locating and securing the release, groundwater and drinking water sampling, investigation, and remediation of the release.
- On **November 28 and 29**, there were reports of fuel odor from consumers of the Navy's Joint Base Pearl Harbor-Hickam water system. The system's Red Hill Drinking Water Shaft is no longer being pumped. On **November 29**, DOH issued an advisory to water system users to avoid using the water. The Navy and DOH are investigating. DOH initial field sampling was below detection limits. Results of more sensitive analyses are expected by **December 2**.

DAA Waterhouse and U.S. Navy Visit to San Francisco, CA

- Next week, Deputy Assistant Administrator Waterhouse and senior management from the U.S. Navy will meet with City of San Francisco Supervisor Walton, representatives from the City's Department of Public Health and Office of Investment and Infrastructure, and state regulatory agencies. Discussions will include the radiological testing of buildings at the Hunters Point Naval Shipyard site and other key concerns including radiological retesting of soils, dust management at the site and community outreach.

On Farm Compost Working Group Permitting Tool Rollout (CA)

- Next week, along with the CA Department of Food and Agriculture, we will announce the recommendations of the On Farm Compost Working Group. The goal of this interagency collaboration between 15 federal, state, and local agencies is to improve the regulatory hurdles to on-farm composting. The rollout will include an interactive permitting tool that allows users to identify permitting requirements specific to a geographic area.

Los Angeles Stormwater Residual Designation Outreach Events

- On **December 7 and 16**, we are cohosting stakeholder meetings with the Los Angeles Regional Water Quality Control Board to introduce our proposed designation of certain unregulated commercial, institutional, and industrial sources of stormwater in the Alamitos Bay and Dominguez Channel watersheds as requiring NPDES permit coverage. These waterbodies are currently polluted by numerous chemicals, including copper and zinc, of which stormwater runoff from impervious surfaces are a significant source.

- **November 30 through December 2**, EPA will hold virtual public hearings each day to provide the public the opportunity to present comments and information on the Agency's proposed New Source Performance Standards and Emissions Guidelines for the oil and natural gas industry. The proposal would expand and strengthen emissions reduction requirements that are currently on the books for new, modified, and reconstructed oil and natural gas sources, and would require states to reduce methane emissions from hundreds of thousands of existing sources nationwide for the first time. The hearings will be opened by Deputy Assistant Administrator Tomás Carbonell. There are currently 343 registered attendees, of which several are registered to speak.
- **On December 3**, EPA will hold a virtual public hearing on the Proposed Extension of Renewable Fuel Standard Compliance Deadlines. The action proposes to modify certain compliance dates under the Renewable Fuel Standard (RFS) program. There are currently 96 registered attendees, of which four are registered to speak.
- As early as the **week of December 6**, EPA plans to open a \$20 million grant competition for eligible entities including state, Tribal and local air agencies, and community-based nonprofit organizations to conduct monitoring of air pollutants of greatest concern in communities with health outcome disparities from pollution and the COVID-19 pandemic. EPA encourages collaboration between communities and government agencies in these monitoring efforts. This program is part of the \$100 million that EPA received as part of the American Rescue Plan.
- **On December 2**, Principal Deputy Assistant Administrator Joseph Goffman and Deputy Assistant Administrator Tomás Carbonell will participate in a webinar hosted by the US Chamber of Commerce titled “Energy Innovates: Methane - Tackling that Other Gas” and will give a short overview of EPA’s recent oil and gas proposal (Standards of Performance for New, Reconstructed, and Modified Sources and Emissions Guidelines for Existing Sources: Oil and Natural Gas Sector Climate Review). This is an open registration event, so press could attend.

- On **November 24**, the OIG transmitted its final [HYPERLINK "https://www.epa.gov/office-inspector-general/semiannual-report-congress-april-1-2021-september-30-2021"] to Congress and made it available to the public. The SAR summarizes the areas the OIG reviewed, the progress that the EPA has made, and the OIG's recommendations to help the agency improve for the period from **April 1** through **September 30**.
- The current FY 2022 Continuing Resolution (CR) that provides funding to federal agencies expires at midnight on **December 3**. On **November 30**, the House plans to introduce an extension of the CR through late January. The House intends to pass this legislation on **December 1** with the Senate likely passing prior to expiration of the current CR.
- On **December 3**, proposals for FY 2022 agencywide and regional measures are due to OCFO. Agencywide measures are those that require contributions from all programs and regions. Regional measures are programmatic measures that require contributions from each of the regions. The final set of agencywide measures will be approved by the CFO and Deputy Administrator.
- Although OMB has not communicated the FY 2023 Passback date, OCFO requested calendar holds for the Deputy Administrator and Administrator for **December 9** to review and provide input to and decisions on the agency's appeal to OMB. These holds will be adjusted once OMB communicates the actual Passback date to agencies.
- OCFO continues to work with key senior officials and program offices to implement the Bipartisan Infrastructure Law (BIL) enacted on **November 15**. In addition to other support efforts underway, OCFO met with Continuous Improvement Program Managers (CIPM) from relevant offices to discuss how OCFO can work with the CIPMs to apply lean principles to the BIL. OCFO also participated in a meeting with the White House, Zealan Hoover, and OMS to discuss the draft strategy for data, analytics, and reporting related to performance management as part of BIL implementation.

Miscellaneous

- The next E-Enterprise for the Environment Bulletin is slated for release by **December 14**. OCFO provided a draft to OPA for editorial review targeted for completion on or about **December 1**. The draft Bulletin covers the EELC October meeting and various other E-Enterprise projects and activities.
- On **December 7** through **December 9**, OCFO will host its Continuous Improvement Virtual Summit geared towards the agency's lean community with plenary sessions featuring experts from EPA and the private sector. Breakout sessions will focus on the tools used for problem solving and, on the experiences, lessons learned, and successes of EPA offices.
- In advance of the three-day Summit, OCFO will host its first-ever State and Tribe Pre-Summit on **December 6**. Over 50 state representatives have registered along with over 30 tribal representatives. This half-day virtual event is an opportunity for EPA partners to connect and learn more about the lean management system to support those who have institutionalized lean principals within their organization and connect with those who are interested in doing so.

- **Pending AA Signature in November or early December (OCSPP):** Internal memo to redelegate the authorities associated with issuance and management of individual Test Orders under TSCA Section 4 to the Deputy Office Director of OPPT. (OCSPP POC: Angela Hofmann, [HYPERLINK "mailto:hofmann.angela@epa.gov"], 202-564-0258)
- **Pending AA Signature in early December (OCSPP):** At the conclusion of the EO12866 review currently in process and the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel approval, the OCSPP AA will sign a Federal Register document that notifies the public as required by FIFRA that the following draft regulatory document was forwarded to USDA for review under FIFRA: "Final Rule; Pesticides; Certification of Pesticide Applicators; Extension to Expiration Date of Certification Plans (RIN 2070-AL00)." This rule would extend the date by which certification plans, modified to comply with stronger federal standards for people who apply restricted use pesticides, must be approved, and allow existing plans to remain in place during this extension. The draft regulatory document is not available to the public until after it has been signed and made available by EPA, which is expected to occur later in December. At the same time, the OCSPP AA will sign letters to USDA and select Congressional Committees to transmit the draft regulatory action as required by FIFRA. (OCSPP POC: Peter J. Smith, [HYPERLINK "mailto:smith.peterj@epa.gov"]; 202-564-0262)

Hot Topics

- EPA will issue the **final cancellation order for the uses of two pesticide products containing the active ingredient aldicarb** on oranges and grapefruit in the state of Florida. This order notifies the public that it is a violation of the Federal Insecticide, Fungicide, and Rodenticide Act for any person to sell, distribute, or use existing stocks of aldicarb products for these uses. Because the Florida Department of Agriculture and Consumer Services never authorized the use of aldicarb on oranges and grapefruit in Florida, there are no existing stocks of aldicarb products with these uses in the State that require stock provisions. On **January 12**, EPA announced the registration of aldicarb for limited use on oranges and grapefruit in Florida as a tool against citrus greening. On **June 7**, the U.S. Court of Appeals for the District of Columbia, in response to a suit brought against EPA by the Farmworker Association of Florida, et al., vacated EPA's registration of

yyyy"]

aldicarb for these uses on the basis that EPA did not make an Endangered Species Act (ESA) determination prior to approving that use of aldicarb, in violation of section 7(a)(2) of the ESA.

- EPA will announce the launch of the **“Companies Crushing Pollution” Video Challenge**. The Challenge invites students and others including people who live near industrial facilities, to create videos illustrating how businesses in the U.S. are reducing toxic chemical releases through innovative pollution prevention (P2) practices and having a positive impact on the environment and communities. The Challenge will promote P2 innovation and raise awareness of the potential for businesses to save money, reduce regulatory burden and have positive impacts on communities through P2. It will also increase knowledge of TRI reporting and analytical tools. Participants have a chance to win up to \$5,000. All videos must be submitted by **March 1, 2022**.
- EPA will announce a **proposed crop group rule** based on petitions submitted to EPA by the U.S. Department of Agriculture's Interregional Research Project Number 4. This is the sixth in an ongoing series of revisions to the crop grouping regulations. Crop groups are established when residue data for certain representative crops are used to establish pesticide tolerances for a group of crops that are botanically or taxonomically related. EPA sets these tolerances, which are the maximum amount of a pesticide allowed to remain in or on a food, as part of the process of regulating pesticides that may leave residues in food. The proposed rule includes changes to the terminology in the names of Crop Groups 6, 7 and 16, and the addition of commodities and modifications that increase efficiencies in assessing the risks of pesticides used on crops grown in and outside of the United States.

Office of General Counsel

Hot Topics

- New Decision: *Natural Resources Defense Council v. EPA*, 20-422 (2nd Circuit) - On **November 29**, the Second Circuit issued a decision reversing the district court's ruling that certain EPA messaging records were not exempt from release under FOIA's Exemption 5 Deliberative Process Privilege. The Second Circuit concluded that "an agency exercises 'policy-oriented judgment' when deciding how to communicate its policies, and the deliberative process privilege therefore protects otherwise deliberative agency records that relate to and precede the agency's final communications decision. Additionally, an agency may invoke the deliberative process privilege by connecting a record either to a specific decision or to a specific decision-making process." The Second Circuit vacated the lower court's order that EPA release certain documents and remanded for EPA to provide supplementary Vaughn Index support for certain documents, considering the clarified standards set forth in the opinion.
- New Decision: *Telford Borough Authority v. EPA*, No. 2:12-cv-06548-CDJ (E.D. Pa) – On **November 23**, the Eastern District of Pennsylvania denied Plaintiff's Motion for an Extension of the Discovery Deadline and granted EPA's Motion for a Protective Order Against Plaintiff's Discovery Requests. Because the court found that Plaintiff had filed discovery late and had not timely filed for an extension of time, misread the court's August 2 Order, and made other procedural errors, the court ruled that Plaintiff is not entitled to discovery at this time. The parties are now free to resume filing of dispositive motions. This case challenges EPA established TMDLs for nutrients and sediment addressing aquatic life impairment of the Indian Creek Watershed in Southeast Pennsylvania.

Miscellaneous

- New Litigation: *Concerned Citizens of St. John v. Regan*, No. 21-3063 (D.D.C.) – On **November 18**, Earthjustice filed a complaint on behalf of its clients against the EPA in the District of Columbia District Court seeking declaratory and injunctive relief under CAA sections 112(d)(6) and 112(f)(2) (technology review and risk review) regarding Group I Polymers and Resins. Plaintiffs seek a declaration that EPA has violated the CAA and an order to compel action under CAA sections 112(d)(6) and 112(f)(2).

Office of International and Tribal Affairs**Hot Topics**

- On **December 2 and 3**, OITA AA Nishida will represent EPA at the bi-annual North America Development Bank (NADB) Board of Directors meeting. The United States and Mexico signed an agreement in November 1993, which created and charged the NADB with helping to improve the environmental conditions along the U.S.-Mexico border region. The Board, which consists of Treasury, State, EPA, and counterparts in Mexico, will be considering expansion of new sectors for investment. EPA will emphasize the importance of addressing water and wastewater infrastructure as a high priority sector, noting the extensive need for new infrastructure and maintenance in the Tijuana watershed.
- On **December 2**, EPA (OITA and R10) will be participating in the first meeting of the Arctic Executive Steering Committee (AESC) which oversees the efforts of the USG to implement the National Strategy for the Arctic Region and to work with state, local and Alaska Native tribal governments. EPA will be presenting on improving water and sanitation services to Arctic communities, particularly the 27 unserved and unfunded communities located in the Arctic Circle.
- From **November 30 to December 2**, EPA (OITA) is participating in the Senior Arctic Officials meeting hosted by Russia. The Department of State leads the U.S. delegation, with EPA participating as the chair for the Arctic Council Arctic Contaminants Action Program. The agenda includes the Arctic Council's work on black carbon and cooperation between the Arctic Council and the Arctic Economic Council.
- On **December 1–3**, EPA (OITA) is representing the USG at the Environmental Policy Committee of the Organization for Cooperation and Development (OECD). The meeting is an opportunity to provide input on the agenda items for the upcoming Environment Ministerial Meeting scheduled for **March 29 - 31, 2022**, and to review progress on OECD's current program of work in the environment.

- **December 1 & 2 – Workshop to discuss draft Program and Regional Office priorities:** As part of the cross-EPA process for developing Climate Adaptation Implementation Plans, a workshop is being held during which all Programs and Regions will present their initial draft priorities. Ken Munis is giving a presentation on areas in which OP offices can contribute to the agency-wide priorities in the Climate Adaptation Action Plan and support climate adaptation work across the agency. The goals of the workshop are for Programs and Regions to: (1) learn what each is doing and possibly get ideas for additional priorities they might each undertake; (2) begin the process of ensuring consistency between NPM priorities and Regional Office priorities; and (3) allow for the possibility that several Regions might identify priorities they could jointly undertake.
- **December 9 – AIEO listening session with Tribes:** OITA's American Indian Environmental Office (AIEO) will be holding a listening session with Tribes on December 9th to inform the development of their portion of the OITA Climate Adaptation Implementation Plan.
- OMB has issued a request for the compilation of the **Fall 2021 Regulatory Plan and Unified Agenda of Federal Regulatory and Deregulatory Actions**. Interagency review of EPA's agenda is complete. The agenda will probably publish the week of **December 6**.

Hot Topics

- **On December 2**, EPA will transmit a letter from Administrator Regan to all governors. The letter, which will be accompanied by FY22 Bipartisan Infrastructure Law (BIL) State Revolving Fund (SRF) allotments to the states. The letter articulates the Administration's aspirations for prioritizing BIL funding to disadvantaged communities and addressing lead and emerging contaminants. The release of the letter will be accompanied by a robust press and digital strategy, including engagements planned with governors' offices and relevant state water stakeholders.
- **On December 3**, EPA will announce that 43 new projects in 25 states are being invited to apply for approximately \$6.7 billion in Water Infrastructure Finance and Innovation Act (WIFIA) loans. Additionally, EPA is inviting state agencies in Indiana and New Jersey to apply for WIFIA loans through EPA's state infrastructure financing authority WIFIA (SWIFIA) program.
- **On December 7**, at an event hosted by the Sewerage and Water Board of New Orleans, EPA Assistant Administrator for Water Radhika Fox will announce a \$275 million Water Infrastructure Finance and Innovation Act (WIFIA) loan. This WIFIA financing will support a project to modernize aging and storm-damaged sewer pipelines to better protect historically underserved communities from the impacts of storm events and climate change while also helping to keep water rates affordable.
